**PROJECT**

Hey, Multimedia gurus! It's time to combine a variety of your newly acquired skills to develop a very unique project: An instructional Paper Slide video – one that will be entered into the next Vista "Creative Compositions 2011 Video Contest"! ☺

## So, What's a Paper Slide video anyway?

Check out examples located on these pages:

## PROJECT CHECKLIST:

- ☐ SELECT A TOPIC – ANY TEACHING CONCEPT ONE MIGHT ENCOUNTER IN A SCHOOL SETTING (i.e. adding fractions, Haiku poetry, the difference between meiosis and mitosis, World War II or any other subject for which you have a clever insight).
- ☐ WRITE THE DIALOGUE/STEPS IN THE PROCESS THAT WILL BE USED TO EXPLAIN YOUR CONCEPT.
- ☐ CREATE PAPER SLIDES THAT WILL SERVE AS THE VISUAL PORTION OF YOUR PROJECT. COORDINATE THESE SLIDES WITH YOUR DIALOGUE.
- ☐ USE MICROSOFT WORD, POWER POINT, PAINT, COOL TEXT AND/OR THE DIGITAL IMAGE SUITE TO PRODUCE YOUR SLIDES.
- ☐ BE SURE TO INCLUDE AN INTRO/TITLE SLIDE AS WELL AS A CONCLUDING SLIDE WHICH INCLUDES THE NAME OF YOUR GROUP MEMBERS.
- ☐ CITE ANY IMAGES OR PHOTOS YOU DID NOT AUTHOR ON AN ATTRIBUTION SLIDE.

- ☐ Your project should be no longer than 90 seconds.
- ☐ Determine the role of each group member. Who will be the narrator? The recorder? The paper slider? (Is that even a word? 😊)
- ☐ Rehearse your video project.
- ☐ Record your project using a Flip video camera.
- ☐ Download your finished project to your Multimedia network folder.
- ☐ Wanna get really adventurous? Add background music to your video (optional). Be sure the audio is not a distraction!
- ☐ Be innovative... Imaginative... Resourceful! 😊
